

MEDIA RELEASE

4 August 2018

HYDROEMISSION SIGNS A COLLABORATION AGREEMENT WITH SIME DARBY RESEARCH

HYDROEMISSION

Hydroemission is a Singapore headquartered materials science company with core competencies in the research, development and manufacture of biodegradable controlled release delivery systems for a multitude of environmental applications.

SIME DARBY RESEARCH

Sime Darby Research Sdn Bhd is a publicly listed company involved in palm oil, rubber and sugarcane cultivation, plantation management, downstream activities, cattle rearing, agribusiness and food. It is one of the world's largest palm oil producers.

COLLABORATION AGREEMENT

Hydroemission and Sime Darby Research have entered a collaboration agreement to identify areas of application of Hydroemission's proprietary controlled release technology to innovative crop care methodologies in oil palm plantations.

The joint research aims to improve the safety and ease of pesticide handling, lengthen treatment residual effect and reduce pesticide consumption in oil palm cultivation, with a target to commercially implement the technology by 2020.
